EURO AVIA® - Green Energy Technologies [EAGE-T] is a Romanian, private Company, with activities in the field of NON-CONVENTIONAL (renewable) ENERGIES.

The Company is part of **EURO AVIA ® Holding** – a Romanian Consultancy Company, set-up in 1998 and specialized in consultancy services and
INVESTMENT Projects
development, with activities, mainly, in CIVIL AVIATION.

EURO AVIA® focused on other domains of interest, as well, such as **RENEWABLE ENERGY**, setting up a
GREEN Energy Department
in 2004, where it has been analyzing the possibility of implementing renewable energy sources in Romania.

Later on, this department has become **EURO AVIA® - Green Energy Technologies Ltd.**, a company whose main target has been the development and promotion of RENEWABLE ENERGY solutions, in Romania - the fastest growing energy source in the world - a clean, modern and efficient technology for the future.
