EA GE-T provides services to wind park developers, being structured in **six stages**
and including:

Stage 1: Site Evaluation;

Stage 2: Wind measurements and identification of wind potential by data analyses;

Stage 3: Technical Study;

Stage 4: Wind Energy Project commencement & implementation (1 or 2 wind turbines of 0.8-2 MWh);

Stage 5: Financial Study;

Stage 6: Commencement of an Industrial Park Project with capacity to produce electricity from wind resources of over 10 MWh.
